

Marvellous Minibeasts

Sheet
4

Different habitats, different minibeasts

You are now going to compare minibeasts from different habitats.

✿ You should have caught minibeasts from at least two habitats. These habitats are quite different. Are the minibeasts that live in them different? How are they adapted to where they live?

✿ Choose one minibeast from each habitat you explored, and fill in the sections below.

Minibeast 1

Name or description of minibeast

What habitat was it found in?

What does it eat?

How many legs does it have?

Are its legs long or short?

How does it move?.....

Can it fly?

What shape is its body?

How is it adapted to living in this habitat?

.....

Draw the minibeast in the box

Minibeast 2

Name or description of minibeast

What habitat was it found in?

What does it eat?

How many legs does it have?

Are its legs long or short?

How does it move?.....

Can it fly?

What shape is its body?

How is it adapted to living in this habitat?

.....

Draw the minibeast in the box

Minibeast 3

Name or description of minibeast

What habitat was it found in?

What does it eat?

How many legs does it have?

Are its legs long or short?

How does it move?.....

Can it fly?

What shape is its body?

How is it adapted to living in this habitat?

.....

Draw the minibeast in the box
